**SECTION 2. FARM-BASED VALUE ADDED PRODUCER**

*This questionnaire requires detailed information on the source of all raw products and ingredients used in value added products.*

*Water is not considered as an ingredient for the purposes of calculation of the origin score. Ingredients that cumulatively constitute less than 5% of a product, such as all the spices together in a sausage, do not require disclosure of origin. For clarification, a curry powder consisting of more than 5% spice would require disclosure of origin of the spices, as they are a key or defining ingredient.*
