### 'Replace the Waste'

**From March 1, 2021**, single-use plastic straws, cutlery and stirrers will be prohibited from sale, supply and distribution in South Australia. This was passed by South Australian Parliament on September 9 2020; *Single-use and Other Plastic Products (Waste Avoidance) Act 2020*.

These single-use items can be replaced with reusable and compostable alternatives.

Stallholders and caterers who supply these items to customers should already have compostable alternatives available as outlined in the revised Adelaide Farmers Market APPENDIX C - RESPONSIBLE PACKAGING POLICY

Compliance in South Australia will be enforced by the Environment Protection Authority (EPA). The EPA will use discretion when responding to any breaches of the legislation and can respond to non-compliance in various ways, To learn more click here <https://www.replacethewaste.sa.gov.au/legislation-explained> or call the **1800 844 945** helpline.

### Fruit Fly Procedure

Until further notice, Primary Industries and Regions of South Australia (PIRSA) asks that all stallholders keep their host produce covered with mosquito netting or packaged in bags/punnets (with no holes) whilst at the farmers' market.

PIRSA has been in contact and said that they will be conducting spot checks to follow up on compliance and answer any questions you may have.
